

# Red Sea Steel

PRODUCT BROCHURE

# Company Overview

Established in 2013, **RED SEA Steel** employs advanced technology and modern equipment, ensuring high-quality rebar production.

The company aims to be a top reinforcing bar producer in alignment with the Kingdom's Vision 2030, supporting increasing market demands in the Kingdom and MENA region. Its annual production capacity ranges from 300,000 to 400,000 metric tons.

# Product Range & Specifications

## → Grades

Deformed Steel Reinforcement Bars  
(ASTM A615 Grade 60 & Grade 80)

Epoxy-Coated Rebar  
(ASTM A775)

Weldable Reinforcement Bar  
(ASTM A706)

## → Diameter

10mm, 12mm, 16mm, 20mm, 25mm, 32mm, 36 mm

## → Lengths

Standard 12 meters (**custom lengths available**)

## → Certifications & Quality Assurance

Certificate No. QAIS-Q-KSA-RS-06.22.008

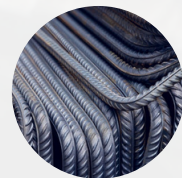

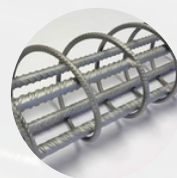

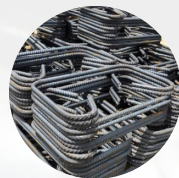

Certificate No. 20230449441

BREG EN EPD No.: 000619

## → Custom Cut & Bent Rebars *(L-Shaped, Spirals, Stirrups, etc.)*

## KEY FEATURES & BENEFITS

- **High Tensile Strength** – Guaranteed durability in construction applications.
- **Customizable Sizes** – Tailored solutions based on project requirements
- **Efficient Supply Chain** – Timely delivery and large inventory
